The Opportunity: Content-Rich Websites Make \$\$\$! The Problem: You're Not a Writer or You Hate Writing  
The Solution: ARTICLE SITE BUILDER! Now You Build High-Content Websites -- Even If You Hate to Write! I'll show you step-by-step how you can use my new, remarkable tool to gather keyword-rich articles, analyze their densities, and build separate web pages for each article collected. Dear Friend, Of course, you want content-rich websites. You've heard the stories this guy makes \$2,500 a week from his sites, another guy makes \$3,000 But you've tried so many times to write content yourself, or you've outsourced it and gotten back broken English, that you don't know who or what to believe anymore. You just want to get those keyword-rich articles than anything else, and you should! That's where I come in. My name is Bruce Lee, and I want to tell you about my new software Article Site Builder. See if this sounds familiar: Don had a mountain biking website. The first week, he put up 20 keyword-rich articles. The second week, he could only think of 10 new topics. By the fourth week, he was out of articles and his site was stagnant. It was just too much work to try to get keyword-rich content. Then he met me, and I introduced him to Article Site Builder. After using Article Site Builder, Don had this to report: It was totally awesome! Within minutes, Article Site Builder brought back, like, two thousand articles full of great keywords. Then it ran the numbers on keyword density for me and built a webpage for every article! Now I've got TONS of traffic and I'm making mega-bucks off my ads thank you, Bruce Lee! Yes, that's all it took! And it can work for you too I know, because it has worked for hundreds of site-builders just like you. However, I don't expect you to believe me until you see even more proof. Don't just take my word for it check out these real-life examples: From Martin Wilder of Chicago, Illinois: I'd spent so much money on confusing tools that I was skeptical at first. But then I decided to try one last thing, and fortunately it was Article Site Builder. Was so easy to use, my 5-yr old could have done it. Found the right articles, did the right stuff WOW! I'm SO glad I didn't give up! Article Site Builder ROCKS! From C.J. Case of San Diego, California: I hate to write, I really hate it. So when Article Site Builder came along, I jumped on it. I LOVE IT! My only thing I regret is I didn't find it sooner. Article Site Builder gets results. It's the Bomb! From Jay Morton of Austin, Texas: You can't believe how much frustration I went through trying to get good content for my site. Didn't have time to

write, and couldn't hire writers cheap enough to make money. Article Site Builder made my life SO MUCH easier. THANKS, Bruce Lee! I promise your situation is not unique. And more importantly your situation is NOT hopeless you CAN get good, keyword-dense content. And LOTS OF IT! The biggest problem is that people who try to get lots of content to put on their sites have been fed the 3 myths by pessimistic people who will never get rich off the internet (so they don't want anyone else to, either!) Here are the three biggest myths about getting content for your Internet marketing web sites: 1. The first one is that you have to be a good writer. Uh-huh. Tell that to my friend Sam. Sam dropped out of 10th grade, can't spell, and reads at a 4th grade level. But you know what? Sam pulls in \$850 a week from his content-rich sites because he ALWAYS has new content up. 2. The second is that there's no way to get good content without paying big bucks to some hotshot copywriter. Truth is, even if you DO pay big bucks, you're likely to get broken English because Mr. Hotshot Copywriter couldn't be bothered with a trivial task like yours, so he offshored it to India. 3. The third is that you can cut and paste articles from other sites and call them yours. The problem is, that's plagiarism. It's illegal and it can get you sued. Don't do it. Wouldn't you agree that it's crazy to think you'll get different results if you keep doing the same thing over and over again? If I keep touching a hot stove and kept getting burned I'd be silly to think the next time I touch that hot stove I won't get burnt. That's why you need to try something different. Here's How Article Site Builder Can Help You Get High-Content Websites Built, Starting Today You see, I've just completed the beta-testing on Article Site Builder to make sure it gives you step-by-step results. It's different than anything other content-building tool you've seen. Article Site Builder has taken two years to develop. Here Are Just A Few Of The Incredible Benefits You Get From Using Article Site Builder: Being able to feed the search engines what they love most: keyword-dense content. Visitors who keep coming back because the contents always updated. A steady stream of fresh, new content. An easy way to insert the content into a template. The ability to find content for hot new topics that you select. The ability to optimize your site so you rank very highly with the search engines. The ability to add content pages to your site without knowing a thing about html! A dramatic increase in the value of your sites. The ability to find relevant content FAST! Okay, So What's The Cost For This Incredible Tool? Let's do a quick comparison - last time I checked, Doorway Ninja would set you back \$247 dollars. Or you could pay \$349 for Content Generator Engine. The other option is for you to shell out \$600 or more buying up all kinds of expensive DVDs and books that will most likely sit on your shelf gathering dust. Frankly, none of these

options really seemed fair to me. So I figured out a way to provide you with a real bargain. This sensational tool, Article Site Builder, is available to you as an instant download, direct from the Internet. This way I have no inventory and no fulfillment costs. I dont need to pay anyone to take the orders over the phone. This way I can pass along my cost savings to you. So you win and I win. But dont worry, downloading Article Site Builder is a real snap. My non-geek friend A.J., tried it, and he had no problem. (It works perfectly with both MAC or PC computers.) You just install the .PHP scripts on your website and set up the database and your good to go! This is a tool that lets you: Use an easy template to get everything set up Pick your own topics and where youll get content from Gather as many as 1,100 articles Turn the articles you pick into web pages Publish those pages on your site Now because you will be downloading everything online, Im not going to charge you anywhere near the amount youd pay for a single DVD copy goes for in a store. In fact, your total investment for the entire Article Site Builder tool is just \$0.99. Thats right, you heard me just \$0.99!
