Are you tired of people asking you WHAT IS THAT THING ON YOUR FACE? Its not a freckle and its not a beauty mark! Stop spending money on dermatologists, creams and laser treatments to remove it! Instead - Get Rid Of Warts, Moles And Skin Tags The Natural Way! These types of skin blemishes are unsightly, unpleasant and can make your life a complete misery! You always wonder if other people are noticing, and as small as this wart, mole or skin tag (wherever it is on your body) is, it is always on your mind. In this revolutionary new eBook I show you exactly how I got rid of these obnoxious blemishes using proven natural remedies that are non-toxic, safe, effective and inexpensive! If you are reading this, it means you are probably at your wits end about how to get rid of a seemingly permanent blemish on your face. If so, then you are just like me a few years ago when I actually lost a boyfriend because of a wart on my face. You are probably thinking - any guy that would leave you because of that is a real jerk, but you had better let me explain how all of this went down -because it has a LOT to do with how this ebook came to be written! This wart was not really big, but it was on the side of my nose - and I was always really self-conscious about it. The worst thing about it is that I could not really see it even when I looked in the mirror because of where it was located on my nose but I KNEW others could see it quite clearly, especially if they caught a glimpse of me in profile. I had the wart for about seven years and all that time I kept thinking of myself as a kind of mutant. I was always haunted by those stories of people being accused of being a witch because they had a wart on their nose. I even felt persecuted or ignored, but of course that was all in my mind. NOBODY else was affected by the wart that I felt COMPLETELY ruined my appearance. Over the years I tried all kinds of different treatments, especially the inexpensive ones. I had the wart burned off, dissolved and grated off with silica based products from the drug store. My doctor gave me a Retin A type cream to reduce the size of it. All that did was give me a big red nose, which is to be expected if you are going to put ACID on your skin every day. I even once took antibiotics to get rid of it. Stupid me and the stupid doctor! Warts arent caused by dirt or bacteria. They are viral and not affected by antibiotic creams at all! The wart kept coming back. It was like a curse. And each time it came back more transparent, gruesome and bulbous than ever. Then about two years ago I fell in love

someone. He loved me back. However, the whole time we went out I was so self conscious about the wart on my nose. I kept trying to slough it off and cover it up with makeup. Despite my best efforts to disguise it, all I ever managed to do is kind of emphasize its presence on my face. You see, the problem was that I started suffering from a body dysmorphia disorder - which is a fancy way of saying that my mind kept blowing the way the wart looked on my face out of proportion. In essence it was causing a bad case of low self-esteem. Because I had this big wart on my nose I found myself - Avoiding putting on makeup because I just felt "whats the point?" - nobody is seeing my face anyway. Growing my hair longer and hanging my head so people would not see the wart. Holding my hand over my cheek and nose to prevent people from seeing it. Avoiding going out because I felt so low about my appearance. Not going for what I wanted because in my head I thought the "wart would stop me." Finally, I hit rock bottom when I finally met this man of my dreams and he confessed his undying love for me. This is a bit of a hard story to tell because it is so embarrassing. In essence, he took me out to dinner, held my hand and told me he wanted to spend the rest of my life with me. I then blurted out, "You want to spend the rest of your life with me even though I have this thing on my nose?" He was shocked. He admitted he had noticed the blemish but he did not see it in the same way I did. Of course, the next thing that happened was that kind of scenario where you are rambling on and on about a subject that should never have been brought up in the first place. The entire "romantic" evening went from being a discussion of the state of our relationship to a discussion about my insecurity about my facial disfigurement. I had in essence given ALL of my power and the power of what would happen to me in the future to the wart and it was determining how I felt, my decisions and my actions. During this discussion, my beloved brought up the obvious which was to suggesting that "there must be some way of getting rid of it." This helpful suggestion drove me up to wall. It angered me and made me huffy. What did he think I was doing all these years? Enjoying the look of this wart on my face? Did he think that I was just going to leave it and not ever do anything about it? I did go on and on about it and I just could not help myself. Then for weeks after, every time I thought the subject was closed I just could not help bringing up the warts on my nose to him again and again. I was in a bottomless black hole of insecurity. In the end my fiance quit our relationship. Quite simply the wart was also causing me to be insecure and unstable in other parts of my life. He also got frustrated with me because I wouldnt let him love me - "warts and all." I just did not have the faith that he could, as I could not even love myself. You see, the key is if that you do not love yourself nobody else will either. This is

when I decided I was going to try and do something about this wart once and for all. Do You Cringe When You Hear the Words "I Love You Warts and All !"? I decided that although this was a nice thing to hear it wasn't for me. I wanted to be loved for my other attributes such as my talent playing the piano. I did not want to be loved DESPITE the big wart on my nose or even because of it. I just wanted the WART gone. So how did I come to write Get Rid Of Warts, Moles And Skin Tags The Natural Way? When I lost that partner due to this wart I decided that my facial blemish had finally cost me too much in life and what I really needed was to get rid of the darn thing once and for all. I decided that I would do what it takes - that I would do as much research as possible on the subject to attempt to find out how to get rid of these things no matter where they occur on the body. I thought it was bad to have them on the face but it is also awful to have them anywhere else that a lover may detect them and start asking those questions such as - "What is that?" "Is that a beauty mark?" "Have you checked that out to see if it is cancer?" "Have you checked with a doctor into getting rid of that?" During my research I not only figured out how to get rid of warts, but also other types of blemishes and by a certain point I had acquired so much knowledge of the topic that I decided to compile it all here in one simple ebook. What I was looking for was a natural cure. This is because not everyone is happy dealing with their wart problem by allowing them to be treated medically. Yet another issue is not everyone will be able to afford such treatment. The good news is - You don't necessarily need medical attention to get rid of a mole or a problem! You can get rid of many unsightly skin blemishes naturally at home! Do you want to get rid of your warts now? Why did I write this book? I wrote this book to help you avoid making the medical mistakes that I did! It includes as many different natural treatments for moles and warts as possible! I also wrote it because I truly believe that whenever possible you should use treatments that are both safe and natural for any condition or complaint you might have. However this does not mean that you should never seek the advice of your doctor or dermatologist especially if you want to get rid of your problem naturally or if you suspect the problem may be more serious. This is because some skin blemishes are actually indicative of cancer or other disorders. You should also seek professional medical advice before attempting to use any of the natural treatments you will read of in this book. I found that before I could even begin to figure out what type of treatment would work for me, I had to find out more about what causes warts. In this book I devote an entire chapter specifically to what causes warts, and cover such topics as - Who is the most susceptible to developing warts and why Why they are so contagious How wart infection is spread How to

avoid being infected with warts The difference between regular warts and genital warts and why you cannot get rid of genital warts with natural remedies! (In fact, if you suspect you have genital warts I am going to tell you right now to get to a doctor as fast as possible!)
