- Easily and quickly add targeted niche video pages to any of your existing websites! "Now You Can Create Instant Cash Pumping Niche Websites, That Update Themselves With Streaming Videos... Without EVER Creating a Single Video Yourself!..." The Absolute Solution To Covering Any Niche In Just 5 Simple Steps... Template based dynamic pages allows you to quickly edit your video section to match any of your present websites. And You'll NEVER Have to Create a Single Video Yourself! Dear Friend, My son is a big fan of "Transformers" and everyday, for a few months after watching the block buster movie, he begged me to let him watch video clips from the motion picture, short stop motion movies produced by fans and even Toy reviews of the movie action figure by independant toy collectors. His interest grew so big that I find it cumbersome to search for a specific video on YouTube without being sucked into the other videos...so I decided to create a website displaying nothing else besides video clips of "Transformers The Movie". But I was telling myself...hey since I am building a site for my son and it's an internationally popular movie why not just whip up something that others can enjoy too? And so I did.... This simple website resulted in: I got 95 page impressions on the 1st day and 458 on the fourth...that's not too shabby...especially when you think about it, I didn't even think of monetizing the site at all. So to confirm this method of earning automated revenue from websites like this, I created 2 other sites... photoshopfreetutorial.com/ didgeridoplay.com/ Although they didn't perform as great as the first one did...it's automated and if you ask me...I don't really remember their domain names without looking into my domain management panel. Now...wouldn't you want to have the same? Having hundreds of websites that's updates automatically riding on the latest internet craze? I know you would but..... then comes the BIG problem..... When it comes to coding the site, it'll take any regular guy a good single day to put something like that together....that is if he knows how to write in PHP... You can forget HTML if you want to build dynamic web pages like that... In short...it's clearly impossible to create something like that for any normal guy who does not eat and sleep writing script codes... You know you need to have hundreds of sites like this earning a realistic \$1/day to live the \$100s'/day mark.. But what if I can change that for you? What if I can help you create those hundreds of niche specific video sites earning you a

healthy side income...let's just face it...even if you are a pro in creating sites like this....you would rather churn niche video websites at the speed of thought...and so I developed.... the Solution.... Dynamic Site Generator "Just decide on your keywords and you'll have a professional video streaming website, boasting 100s' of entertaining YouTube videos in 15 minutes or less Guaranteed !" -- LIMITED SPECIAL BONUS -- Master Resell Rights Included! Fully Automated Set it up once and every single time there's a new video for your main keyword or keyword tags, your websites gets updated automatically! Does Not Exhaust Your Bandwidth This script uses dynamic pages..in other words, it uses minimal hard disk resources. And because it uses YouTube's bandwith, your web host will be running on optimum performance! LIMITED BONUS OFFER -- Includes Master Resell Rights w/ Sales Letter and Graphics! Tags: mrr
