

Auction Script Software For Your Own Business

[DOWNLOAD HERE](#)

This script is your on your own choice of domain and Linux cPanel hosting. This script is created with PHP and MYSQL for a auction website. Require System: cPanel-X Software Features Overview Admin Area: control over your auction web-site. From within the admin area you can: Manage users Manage auctions, wanted ads, reverse auctions Full fee and invoice control Customise categories Enable/Disable a wide array of features and settings Review accountancy Update the site content (about us, contact us pages etc) ...much much more Reverse Auctions: Reverse auctions will enable you to run an elance style site/service whereby buyers can source providers. From within the admin area you have full control over every aspect of reverse auctions, from open and closed listings to providers profiles and related fees Direct Payment: Buyers can now make payment to sellers for items won on-site through one of the following payment methods: Paypal, Nochex, RBS Worldpay, moneybooker.com, Authorize.net, 2CO Wanted Ads: include wanted ads. Enable your users to post adverts for items they want! You can also charge fees for posting wanted ads and also for a successful sale. Media upload: Sellers can upload upto 9 pictures as well as media file to accompany their listing. As site admin you can impose a fee for the use of this service Vouchers Offer incentives to new and existing users with our new voucher system. Choose to offer reductions as a percentage or a flat rate. Stores Enable your users to open their very own store on your auction site. Each store owner can pick and choose their own categories from the main selection. You can also setup store subscription packages to attract bulk or Business customers. Store owners can choose whether to list items in their store, for auction or both. A selection of store skins are also included. Private Or Public Site Choose to run your site as "Private" or "Public". Private ensures only you and your selected users can list items for auction, this feature is ideal for Businesses wanting to auction stock. The public option is the default selection and it's basically like eBay, i.e. everyone can sell & bid. Preferred Sellers Give your best sellers special reductions on listing fees. More Features: Dutch Fixed Price Auctions for multiple items with e-mail confirmation and quantity bided on. Home Page Auction Listings, Home Page Image Gallery Auctions, Category Auctions, Bold and Highlighted Listings, Auction Bidding Confirmation Display, Payment / Shipping / Display, Ask the Seller a Question, Seller and Buyer
