

Gardening Greatness - 6 Gardening Ebooks + 4 Bonuses

[DOWNLOAD HERE](#)

Gardening Greatness is a collection of 6 gardening related ebooks, which covers everything from the very basics of garden care, to simple yet effective gardening tips, to indoor gardening. Here are the 6 Gardening eBooks that you will get: Greenhouse Maintenance (93 pages) In-Door Gardening for Every Week in the Year (83 pages) Gardening Made Easy! (109 pages) Caring for Your Garden (25 pages) The Secrets For A Lush Garden How To Make Your Garden As Your Neighbors Envy (69 pages) Planting and Caring for Your Rose Garden (30 pages) Here is just some gardening tips I picked up after reading just the first few pages of just one of the 6 gardening eBooks, Caring for Your Garden: 1. Some flowers that can give your garden a delicious scent include roses, angels trumpet, hyacinth, heliotrope, gardenia, garden phlox and confederate jasmine 2. A possible indicator of a beautiful smelling flower, is petals that are colorful, bright and thick petals 3. If you want a beautifully fragrant garden, pick flowers that bloom at different times. By picking flowers that bloom at different times means that you wont have the smells of your different flowers clashing with one another. 4. If a flower is not giving off a sweet smell, it could indicate that they need water. 5. If you are just starting out, some of the basic gardening tools that you will need to get your garden going are the following: a spade for digging, shears for pruning, a gardening hose, a shovel, a garden knife. 6. One of the first gardening preparation steps, before you start planting anything, is make sure the soil is ready. You need the soil to be able to retain moisture, but that does not remain too wet. 7. If you are a beginner in the garden, a good flower to get started with is annuals, since they are very easy to grow and to care for. You do not want to start off with a flower that requires a lot of maintenance... so start with something easy, like annuals. 8. If you have trouble cleaning your hands after working in your garden, a useful home remedy gardening tip to try out, is to rub your hands with olive oil and sugar. 9. Another home remedy gardening tip, but this time for fertilizer for your flowers, is to place banana peels below the soil surface. The banana leaves will end up providing your flowers with calcium, phosphorus, silica, magnesium, sulfur, sodium. 10. A common gardening problem is getting rid of weeds and grass that is growing between paved areas. A very easy gardening tip that you can make use of, is to stray that grass or weed area with a solution of water and vinegar or salt water. You need to be careful

where you spray the solution because if you spray the solution on your plants, you would end up killing those plants... remember, you want to grow your garden, not kill it. 11. There are four common types of gardens: a shrub garden, a garden of annuals, a rose garden and a vegetable garden. Keep reading to find out about the different chapters of each of the 6 gardening eBooks. But, before I tell you about the chapters, here is some more info on the incredible bonuses that you will get when you buy the Gardening Greatness eBook Collection: Special Bonus: An Opportunity to make money and start an Online Business You have the right to sell each of the 6 Gardening eBooks.
