And much, much more Read below to find out more Dear Friend, Your time is precious so Ill get straight to the point. If youve heard it once, youve heard it a thousand times. 'The Money Is In The List!' And yes, thats true. But its only half the story In fact, the REAL truth is "It's Not The List, It's How Responsive They Are That Counts!" Nearly every internet marketing guru is telling you to build a niche list, sit back, and watch the cash roll in. And if you take the time, trouble and money to build a list, then yes, it can be highly profitable for you. Just one problem though (and its a bigun) It costs a freakin FORTUNE to build a list in the first place! It used not to be this way. Back in the day, when I started out in the internet, you could whack up a webpage, buy some cheap keywords on Adwords and voila!, list built and job done. You could buy top keywords for 5c a click, and it was dead easy to build a huge list for a few hundred bucks. Which is why you see all these top internet marketers with huge lists.

You see, they started long before many of us actually heard about the internet, and as a result they cornered the market (and built their lists for pennies). But now its a whole different ball game I just checked out what it would take to buy traffic on Google Adwords for the keyword 'internet marketing course', and I damn near fainted! A whopping \$78.59. Thats nearly EIGHTY BUCKS! For one term! And if you haven't got an amazing, high converting website or a ton of 'back end' products to follow up sales with, its damn near impossible to make any money from this niche It gets worse...Time for some brutal honesty If youre an average joe who doesnt know the 'secret skills' of the internet, then youll NEVER build a highly responsive list using Adwords or paid traffic UNLESS you have VERY deep pockets But I knew there had to be a way for the ordinary guy to fight back, and get round this major problem (and make big money as a result) Thats why I wanted to find a way into 'hot niches', by using the speed of pay per click traffic to build a highly responsive list without spending a fortune and losing my shirt! (OK. I admit it. Im a cheapskate!) But Then I Made An Amazing Discovery So I set about working on a 'system' that would work in ANY niche that would provide me with the two factors essential for my online success:

Factor #1 - Building A Large 'Highly Responsive List' Factor #2 This 'Highly Responsive List' Actually MADE Me Money Within Days Of Buying The Traffic It took a lot of trial and error (and a mountain of my money to test). But eventually, by putting these two important factors in place, I built (and got paid for) a list in just a few days. Here's a screenshot of my earnings from just ONE of my accounts: Now for the GOOD news After making \$2,154.64 from it, and for the first time ever, I am going to show you EXACTLY how I did it -- and more importantly how YOU can do it too!
