Supercloaker - The Most Advanced Html Cloaking Technology Available

DOWNLOAD HERE

SUPERCLOAKER THE MOST ADVANCED HTML CLOAKING TECHNOLOGY AVAILABLE The old days when you had to cloak page by page are over. When I first invented HTML cloaking in the mid 90's you had to install a special page for EACH html page you wanted to cloak. Now with supercloaker a single 5 minute install will protect your ENTIRE WEBSITE. Furthermore, if you have ability to fully utilize .htaccess you don't have to use .shtml extentions so the cloaking is 100 transparent. NOBODY has ths technology... until now. The program comes with a recently updated list of spider IP's and these lists can be updated and found all over the net. Keep your precious HTML protected with SUPERCLOAKER the most advanced HTML cloaking software online.
