Breakthrough Web Script Allows Marketers to Provide Galleries of Ecovers and Screenshots! Not To Be Outdone, Web Graphic Designers Host Their Portfolios With The Very Same Script! You heard right! Marketers have been introduced to a brand-new script that cuts sales page load times way down and centralizes all of their web graphics for visitors to see! Dear Marketer, It just doesn't make any sense! Load time for sales pages is very important. If a webpage takes too long to load up, visitors are likely to click away. Why should they bother waiting? However, you constantly see marketing sales pages that have pictures plastered from top to bottom. Of course, the page loads up slowly and high-speed Internet surfers are the only ones immune to the lackluster loading time of the page. Take Note of This!

Marketers, you can still show off ecovers and box shots of the items on your site or in your sales package! Now, you can integrate an ebiz gallery script into your sales page and you don't have to worry about the page taking 10 years to load up. Introducing the equalizer, 'Ebiz Gallery Pro' You can use EGP to create galleries to store all of your important ebiz-related pictures and web graphics. You can store: ecovers, box shots, screen shots, business photos, seminar pictures, and a whole lot more. You are only limited by your imagination! With Ebiz Gallery Pro, you can also: - Collect and moderate feedback from visitors (visitors can comment on the photos) - Import and upload entire folders of photos -Manage Multiple sub-galleries under the main gallery. - Visitors can view a slideshow of all photos in a given sub-gallery. Ebiz Gallery Pro is the very first of its kind! Nowhere else on the Internet will you find a web script of this caliber targeted only to Online Business! A Little Background On The Script, Provided by Creator Kim Enders 'Ebiz Picture Gallery was inspired by my need to point to my ecovers, screenshots and graphic portfolios from sales pages and sites I own. As you know, if you create a sales page that is loaded down with pictures, it makes the page load up a lot slowly. Why do that when you can just as easily point to a gallery with all of your pictures? So, not finding anything else like this script out there on the Internet, I filtered the Net looking for a script to tailor to my needs. Less than a day's worth of tweak coding later, Ebiz Picture Gallery was born! As this script has proven useful to me, I've chosen to distribute it to other online marketers and sellers. I'm sure you'll find it useful!' 'Thank you especially for

'Ebiz Gallery Pro'. I've been looking for something like that for a long while now.' I felt the need to write you to let you know that I think your products are just GREAT!
