Delivered by heavily equipped army supply helicopters, deep behind enemy lines, this hard-hitting consignment of guerrilla beats and breaks was built to stand up to the toughest opposition in any scenario. Heavy-duty old-school machinery has been fused with modern musical weapons technology, to create a hybrid selection of ruff and rollin' riddims, ready to deal with the deadliest enemy in the jungle. Get this inspirational flight case full of 70 hard-hitting dubstep, electro, garage and reggaeton breaks and start to build sets with high-calibre capabilities. Loaded with explosive kicks, glitchy snares and armour-piercing synth percussions, your hard drive will be ready to destroy any dancehall. Clearly labelled, precisely cut and suitable for immediate use in any sampler or sequencer, including Logic, Reason, Ableton and Fruityloops, you'll be missing in action for days in the studio once you get your hands on this deadly pack. Using all-analogue classic drum machines like the Roland 626, Alesis SR16 and the LinnDrum, along with modern hardware and chopped up re-sampled vinyl breaks, producer Dimitry Vasilyev has created an insanely varied array of sonic weapons. Of course, every megabyte has been analysed and triple safety-checked in our laboratory, giving you optimum quality and maximum destructive firepower every time. Originality is the key, so here you can find a wide range of tempos from 102-145 BPM, with Jamaican, Latin and Nordic influences, leaving you to twist the genres into dubstep, reggaeton, hip hop, underground garage, leftfield breakcore, electro and all other kinds of serious bass music. Produced with intelligence and fuelled by progression, all our packs are royalty-free, to allow you the maximum creative freedom. It's time to take this sound seriously and throw some of your own innovations onto the battlefield. You can find this release in a large number of other special formats on our website including: Ableton Live Pack (100mb) Acid Loops (116mb) Akai MPC (143mb) Apple Loops (116mb) FL Studio (116mb) Garageband (116mb) Reason Refill (162mb) Rex2 Loops (84mb) WAV + REX2 (200mb) and many, many more!
