Fun, fresh takes on old folk tunes from way back in simple, lively folk/bluegrass style with just enough irreverence and unique solos to make it a kick in the pants. 13 MP3 Songs FOLK: Traditional Folk, COUNTRY: Country Folk Details: This project began as a memorial to Joe's father, Jim, who passed away a short time back. We recorded a few of his favorite songs, and the results seemed quite fine, and everyone who heard it wanted to hear more. So we made more, and now we're rolling it out. The piano has wheels, even. Joe, on guitar, makes his livin', mostly, from quilting- so the title has a couple of meanings.
