"Who Else Wants To Crank Out Profit-Pulling Letters And See Their Conversion Rates Shoot Through The Roof Like A Rocket... Starting Today!" Become Your Own Instant Expert At Writing Master Pieces That Sell... And Convert Twice Or Triple As Many Customers! Dear Marketing Professional, How would you like to crank out your own profit-pulling letters that sell and do it within hours instead of days, weeks or even months? Direct Response Sales Copies are FAR from dead, contrary to what many people might have you believed. You see, back in the 1960's many people speculated that magazines and newsletters will phase out when the television was newly introduced. Hey, we're in the 2000's now and what do you think? Do people still read magazines? YEP. Is Direct Response Marketing a thriving business? MORE THAN EVER. On the other hand, how many people walk off and buy something after watching an ad on TV now? NOT OFTEN. "Direct Response Sales Copies WIN... Hands Down." If you remember the last time you bought a product you probably were convinced by a sales letter before making your purchase - and I rest my case on that. As a matter of fact, most marketing experts are making their millions online selling more volumes of their products which otherwise couldn't have been achieved without the aid of a better written copy. Sales copies act like your personal sales man, only 24 hours a day, 7 days a week... Pretty much like what you're reading right now, so you know I'm walking my talk. "This Is The Reason Why Top Gun Copywriters Are Paid Big Bucks..." But the problem is that whatever these copy writing masters are charging, it's beyond the budget of many frugal and starting Internet Marketers. Chances are, you're one of them. And if you are selling anything online - and I mean ANYTHING - having a sales copy or not is like LIFE and DEATH for your business. Can you afford NOT to get at least a decent sales copy? This might just cost you more than getting a professional expert to write on your behalf. This sends most new marketers on a budget to an edge where they can only decide between the worse and worst. Think about it: \* If you don't have a sales letter that converts, you will only waste your traffic generation efforts, \* Even if you spend big bucks to line up the pockets of an expert copywriter, that usually means a longer time before you can even cover your investment back, and \* Now this may come as a shocking truth - but there is no guarantee even if you engage an expert copywriter. What if your offer isn't compelling

enough? No one else knows your product better than you do unless the copywriter takes your business as serious as his own. But is a few grand worth the risk? "But What If I Tell You That..." You can actually become a pro copywriter as well? NO, you don't need special qualifications to do this. As long as you can type with the keyboard, you stand as much chance producing your own profit-pulling sales letters. And see your conversion rates soar through the roof! ... And repeat the same step for every product you are selling online - over and over again. It doesn't matter whether you are selling your own digital product, physical product, or merely an affiliate for someone else... Finally you can outgun your competitors, bring in twice or Triple as many sales, increase your conversion results by as much as 50 - 300 from your visitors... ... And not be at the mercy of expensive copywriters! "Introducing The Step-By-Step Videos To Becoming An Online Copy writing Pro..."
