New wave ambient with a world beat, Goth, poetic, experimental. Truly something new. 10 MP3 Songs
NEW AGE: New Age, WORLD: World Fusion Details: Hathors Sister believes that nature should be befriended. When we surround ourselves with natural beauty or uplifting elements, they complement and balance our lives, thus invoking a presence of well-being. Such an environment, filled with music and objects of art which inspire us, will improve our disposition and our health. We aspire to create music that has this affective potential. Art and nature have been intertwined throughout history. The symbolism of four elements pervades both. These archetypes are imprinted on the human consciousness. We are deeply moved by them. We have a fascination with symbolism, which largely shapes our internal process. The element of mystery prevails in our work. Our creative process is a life long search using the language of art and music to explore the depth of the enigma called life. For Hoactors Sister this is a metaphysical exploration. Marta and Nina work in many media. Hathors Sister is a collaborative project which adapted some of Nina Paks poetry for musical compositions created by Marta Wiley. It is an experiment with voice, using mantras; and various instruments and objects to make sound, Which brings an unusual, haunting flavour to the music. Vocals are by Marta Wiley and Nina Pak, with an occasional guest performer.
