The Surfites, one of Europe's best surf/instrumental bands, takes you through a world of surfing, race cars, ancient Egypt and even to the Old Wild West. 16 MP3 Songs ROCK: Surf Rock, ROCK: Instrumental Rock Details: The Surfites are a gang of landlocked gremmies playing instrumental surf music in the old school style. When listening to the Surfites, you'll notice how the driving sounds of the guitars capture the rhythm of the surf pounding on the shore, and how the beat creates the excitement of shooting the curl. Formed in 2003 by the two Fjellgren brothers of now defunct Swedish surf band the Daytonas. The Surfites are mainly a studio group with buddies dropping by for the recording sessions and some fun. Last year the guys completed recording material for a debut album in their basement studio and the finished CD is now out on Double Crown Records. Cowabunga!
