Drums of Yoga is a new turn in the now famous Music for Massage and Yoga series. Rhythms were  
asked for, so rhythms are what we produced. You can even belly dance to these rhythmic gyrations, fast,  
slow and in between. For the spiritually serious, this music is intuitively designed using all the skills and  
tools of music education and experience to form a spiritual union with the music of the spheres. Drums,  
sitar, guitars, flutes and various percussion instruments often combined with orchestral instruments form  
a new union of genres that will tingle your soul. I feel these vibrations in all parts of my body. You can  
also with proper EQing of your sound system. Enjoy, above all, enjoy this music. It is fun and good for  
you, too!
