Promo Page Generator This brand new script allows you to create professional promo tools pages fast and easy. And maybe the best part about it is that you dont need to know anything about HTML or PHP - If you can copy & paste, you can present your affiliates a fully featured promo tools page in less than 10 minutes Everybody knows most affiliates are pretty lazy. They dont want to spend their time creating promo tools for the products theyre promoting. (And who can blame them?) And since your success is directly determined by their success, youll have to do it for them! By giving your affiliates ready-to-use affiliate promotion tools with their affiliate links already embedded, the number of affiliates actively promoting your products will increase, which will - of course - have a positive effect on the number of sales you make. Promo Page Generator is a simple PHP script that will guide you through the process of creating such a professional promo tools page step-by-step. No complicated coding involved! And maybe the best part about it is that it works with ANY affiliate program; it doesnt matter if youre using Clickbank, Saleflurry or any other - as long as theres an affiliate link, PPG can do the job for you!
