Create Professional Quality Graphics To Help Sell Your Products And Services Like Crazy! Have you ever paid for graphics for your website to help you sell more product? Have you also received the outrageous bill from the graphic designer after that? Or even worse, have you ever said to yourself "I can live without an eCover because they are just too expensive?" That's a very big mistake! It's proven that an eCover can help you sell tons more products. Whatever your situation, there is a solution to both of these problems. That's the entire purpose of this letter. Read on for the full scoop... Your Name Here

-- Dear Friend, I'm very glad that you made it to this webpage. This letter is going to discuss something that you have never seen discussed before when it comes to graphics. We all know that getting an eCover graphic for your project can be a very expensive thing to lay out cash for. But this letter is going to show you why you no longer have to worry about that again because of an incredible new release. You are going to get the same "action scripts" that pro web designers use to make graphics that they sell for hundreds of dollars. What?! You didn't know that each eCover is never crafted by hand by the person you've been paying an arm and a leg for graphics? It's true, all graphic designers use these "action scripts" to create ALL of the eCovers to make the process easy on themselves. But you have to pay them because we all know an eCover will increase sales. In Fact... One Well Done eCover Can Boost Your Sales By 1400 Or More! It's a fact, there is no doubt that having an eCover prominently displayed on your website will increase sales for your product. This is because it gives your customer a visual representation of your digital product and helps them picture it in their mind. After all, if you are buying an eBooks, software or subscription to an online newsletter or membership site, it can be very hard to "picture" what it is your buying. This is because what is being purchased is simply digital access to something. eCovers will give the prospect the feeling that they are actually getting something like a book or software box, etc. This simple visual element of your website can increase your sales by as much as 1400 or more alone! The only bad thing about eCovers is

that they always cost a ridiculous amount of money to have created. Well, that is until now... How Can I Get Pro Quality eCovers Created Without Having To Pay A Graphic Designer?
