Over the last few years Reggaeton music has seen a massive rise in popularity across the world, and it shows no signs of stopping with huge hits such as Daddy Yankee's Gasolina and Pitbull's I know you want me. Artists such as LunyTunes, Noriega, Eliel, Don Omar, Alexis & Fido, Angel & Khriz, Nina Sky, Nicky Jam, Zion, RKM & Ken-Y, Voltio, Calle 13, Hector "El Father", Wisin & Yandel, Tito "El Bambino" and many others have achieved huge success already, and with Reggaeton being a relatively new genre, there's plenty of room for new artists to break through. Alongside the beefy bouncin Latin drum beats, percussion, snare rolls & intricate hi-hat flares, you will also find the hottest synth hooks from the industry's leading synths, royal orchestra licks, hot ethnic instruments, and much more. Each Groove contains 10-20 matching loops, for example, one groove may contain: synth lead, drums, synth, orchestra strings, and so on all of which layer perfectly together, and can be arranged, remixed and edited any way you wish - instant results and pure heat every time. Everything has been mastered & optimised to chart standards in crystal clear 24 bit audio - this release possesses huge potential for maximum exposure in the right hands.
