How To Make Minisite Templates PERSONAL USE RIGHTS ONLY! Ive got a secret to share with you... Its something that the top internet marketers have known for years... and arent real happy that Im sharing with you now... But you see, Im tired of watching these big wigs making all the money online by keeping this secret to themselves - which is why Ive taken it upon myself to let you in on one of the most profitable online practices youre ever going to see... Introducing...The How To Make Minisite Templates Video Series! The video training series that shows you the exact steps you need to take in order to start building your very own online niche marketing empire! Though Niche Marketing may sound like a new phrase, its really the heartbeat of the entire internet marketing era... The idea of choosing a subject in which many people are searching for information, finding a product that solves their problems, and then creating a mini-site around that product is one of the most well-kept secrets of the biggest names in internet marketing. Most marketing training courses will give you the absolute bare-bones of how to set up your online niche empire - but not my Mini-Site Mastery training course... In this series of videos, Ive laid out the exact steps youre going to take to create your new internet marketing empire: * In the first video, youre going to learn exactly how to set up a great hosting account. Building a mini-site starts with your hosting account, and Im going to show you exactly how to do it the right way; * In the second video, youll learn how to choose the perfect domain name for your mini-sites. Not only will you learn how to choose the right domain name, but youll discover the best ways to register it too; * In video number three, youre going to learn just how simple it really is to point your new domain name to the site you create - a step that, if omitted, will keep people from ever seeing your new site; * Video four shows you how to add your new domain name to your hosting account. Even though many marketers will try to scare you off with their explanation of this step, Im going to show you just how easy it really is; * In the fifth video, youre going to learn just how easy it is to make certain you have at least one email account to use - so that your customers have an easy way to contact you with their questions, and so that you can easily receive all of those lovely payment notifications; * Video six will show you exactly how to use an FTP program. FTP is one of the most misunderstood aspects of having a website - but after watching this video, youre going to

be amazed at just how easy it really is; * If you ever thought that editing a site was hard work, then youre going to love video number seven. In this video youll discover the secrets to making editing your site on the fly a piece of cake; * Video number eight is the most important, as you will learn exactly what you need to do in order to get your site up on Clickbank. Clickbank is the number one marketplace for anyone wanting to make a living with mini-sites - so this video is a vital part of this amazing series; * In the ninth video, youre going to learn how simple it is to set up a redirect on your new mini-site. This is an important part of the mini-site sales process; * In video ten, youre going to discover how to create amazing thank you pages that not only capture your buyers contact information - helping you to build your list for even more profits down the road - but that also offer your visitors another chance to purchase from you while their credit cards are still hot in hand; * Video number eleven will show you how to set up a download page for your customers. This not only automates delivery of your products to your customers, but also helps to protect their location from the prying eyes of would-be hackers; * And last but not least, video twelve will show you how to create an affiliate page for your new mini-site that will have visitors begging to promote your product - thus earning you an even larger online income... without any extra work! Not only do these videos take you through the entire process of creating and setting up your very first mini-site... They make it all easy enough for anyone to understand so that youll be able to repeat the process over and over again until youve built an internet niche empire just like the ones that the top internet marketers use to bring in thousands of dollars each month!
