THE Super Soul Sista.... 17 MP3 Songs URBAN/R&B: Soul, URBAN/R&B: R&B Pop Crossover Details: Not since 'THE MISEDUCATION...' has there been such a seamless bridge of Hip Hop and Urban Soul; But in a world where musical comparisons are unavoidable, if not inevitable, CoCo Jones is out to carve her own niche in the minds of connoisseurs and casual listeners alike. While heavily influenced by the soul of the 70s, the 24 year old, Ms. Jones, should not be taken lightly as a lyricist. She brings passion in her vocals, rivaled only by her skill on the mic. Her debut album, To Whom This May Concern features a collection of soulful ballads, as well as fire-breathing hip hop classics. Entirely produced by up and coming producer, Roahn Hylton, of Firstborn Productions. CoCo Jones passion and versatility will surely evoke comparisons, but this young lady is in a league of her own.
