Poser / DAZ Prop File: One Piece School Desk. Re-creation of the one piece school desk that so many of us spent hours in. Now it's our turn to teach class. Includes the book basket under the seat for storage. There is no writing on the desk tops, and no gum stuck underneath. Files are in poser format. Click the thumbnail for a larger, more detailed render of the desk. Morphs have been added to allow for raising the desk top and for increasing distance between desk and chair. I've exaggerated the distances here to show the morph more clearly. This option allows for better fitting to character. All work shown is in Poser6. For more visit Tox3d.com
