One of the biggest, most-common problems you may run into during product creation is not knowing where to start - you have writer's block or an 'idea block'. Or you simply don't have enough time and money - also a very common problem. So let's start with how you can use Private Label Rights resources to turn them into your own unique new products. As mentioned above, most people will take PLR products and just stick their name on them. The PLR For Newbies Video Series will reveal powerful ideas you can use to stand out from the crowd. In Video 1, you'll also learn the tools you need to assemble before continuing on to the remaining videos. Video 2 - Converting PLR Articles To Your Own. Private Label Articles are by far the most commonly-used type of Private Label Rights resources online today, simply because PLR articles are shorter, easier to create, and more widely available than other forms of PLR products. Instead of just sticking your own byline on your PLR articles, there are many ideas that you'll learn in this video to reshaping PLR articles into different forms that can greatly increase your exposure - and your profits! Video 3 - Making The Most Of PLR E-Books. Private Label E-Books are the next most-widely available type of PLR product because many people love to write. Since e-books are larger, you can generally do a lot more with them when you reshape the PLR products into different formats. In this video you'll learn how to do just that - and once you get the hang of processing PLR e-books you'll understand how to easily make them over into your own unique products. It doesn't matter if 1,000 other people have PLR to the same e-book, because the PLR For Newbies Video Series will show you how to stand out from that crowd... Video 4 - PLR Audio - Audio E-Books & Audio Articles In this video, we won't just be going over the basics - we'll reveal many cool out-of-the-box ideas to you that most people will not even think of! By

using the ideas in Video 4 you'll be ahead of the crowd right from the start! When you get Private Label Rights to videos, most people will simply resell them. But what good does that do when 100's of other people may be doing the same thing? It is not hard at all to rebrand PLR videos, add audio, add and remove video clips, etc. In PLR For Newbies Video 5 you'll learn how to do that and you'll discover some new ideas that'll allow you to reshape your PLR videos into other product forms as well. Exciting, isn't it?

Video 6 - PLR Source Codes - Private Label Software It doesn't matter if you have ZERO experience writing software code - in Video 6 you'll learn how to manipulate Private Label Source Code and take it to the next level. While others may have to resell it without even adding their names to the source code, you'll be learning how to add and remove features without so much as touching the programming itself. You'll learn tricks and tips to keep your costs down if you decide to hire programmers to alter your software, too! You'll also discover how to keep yourself safe should you hire a software developer you don't already know.
