

# Kanye S Mid West Drums

When you talk about the east coast you're talking about New York; when you're talking about the west coast you're talking about Los Angeles; but when it comes to the midwest hip hop... you're talking about Chicago, Cleveland, Detroit, St. Louis, Kansas City... You're talking about MC Juice, Eminem, D12, J Dilla, Lupe Fiasco, Bone Thugs N Harmony, Common, Nelly, Twista and Obie Trice... And you're definitely talking about Kanye West, the producer/rapper that broke into the scene with his multi-platinum debut in 2004. Speeding up instrumental and vocal parts of old soul tracks became his style and has been adopted by so many other rap artists. Oldies that become club bangers with hard hitting vinyl drums layered on top is his signature. So if you're into the mid west style of beatmaking, here it is: "Kanye's 'mid' West Drums" This compilation contains: 265 Mid West Snare Drums 260 Mid West Bass Drums 185 Mid West HiHats (HH+OH) 37 Mid West Shakers 32 Mid West Claps 30 Mid West Tabmourines 25 Mid West Rides 18 Mid West Percussion 18 Mid West Crashes \_\_\_\_\_ 870 Mid West Drum Sounds Just download the preview files and layer them on top of high pitched sped up oldies. There are toy beatmakers out there that say they have 10,000 and 10,000 snares... In reality, established producers only use about 10 to 50 BDs, 10-50 SNs and so on... and they just recycle them and change their library maybe every other season or on every other project they be working on. I've seen this in studios... Beatmakers using only 10 BDs and 13 SNs and maybe 10HHs for a whole album... They just EQ them and compress them differently on each track... If you are experienced with equalization and compressing, then you know that from a single drum hit you can produce maybe up to 10 different and "worth keeping" variations of that sound only by EQing and compressing it. So, if you're into the Mid West beatmaking style, this collection will last you for many many projects/records. Copy-Paste into another folder the drums you like and use most. Make other smaller drum kits out of these drums. By customizing this drum collection you will get familiar with the big amount of drums we present. We advise you to use the same kits you've created over and over for a period of time. This way you will get familiar with the enormous number of drums and you will have your own signature on the beats you make. Cos that's the key! Use the same sounds through a period of time and your style will be noticed in your hood, your city

or the network youre about to build!!! Sample them on your ASR10 or MPC2000XL and match the Kanye West style of percussion!
