At the age of 4 1/2 years, I knew that my life would be in the music field and started to play the piano! At age 12, a car accident with my parents changed my perception of life for ever as I encountered Angels and other Beings of Light during a Near Death Experience. One year later, I was intuitively guided to play a celebrity's name on my piano, not knowing it would become my life's work. I knew this was powerful stuff, more than any kid could handle and I tried to ignore it for years. Every single day, I knew that someday I would have to face it, letting go of fears. I won awards as a pianist, and was trained at one of Frances most prestigious schools of music in Paris, France, then worked as a composer and sound-engineer for record companies and French Television. I started to compose at the age of 19 but all the French Record Labels I approached told me that my music had no future. I needed to listen to the radio and come back with some more commercial stuff, which I decided to accept. But I was going away from my path and even though all my friends tried to tell me, I kept ignoring everyone who was used as my Messengers... At the age of 30, I was paralyzed from waist down. That day, I knew God was waking me up to bring me back to my path. That day, I committed to God to listen and to start learning my psychic and healing gifts. Everything then started to fit in my life and my departure for the USA was finally ready. I moved to Los Angeles at the end of 1999 and appeared on Real Musics benefit album early 2000, "Cousteaus Dream", alongside such artists as Vangelis, Yanni, Kitaro, Kenny G... to the Palm Springs area in 2002. I have released five solo instrumental albums of soothing yet uplifting music: "Voyage of the Soul", (very soothing, relaxing and meditative melodies transporting you gently to a state of Peace within) in 2002, "Soaring With The Angels", a blissful, mood lifting album as Amazon quotes it,in 2003. "Dolphins... A Message of Love", (CD totally channeled from the dolphins), in 2004. This album has been voted TOP TEN Favorite New Age Album for 2004 by Kathy Parsons of Solo Piano Publications and New Age Reporter quotes: Music of the Miracles... Real Music signed me for a worldwide compilation album, "Real Piano", in 2005. I released my

4th solo album "Symphony of Light" on February 2006. This album has been voted TOP TEN Favorite New Age Album for 2006 by Kathy Parsons of Solo Piano Publications.
