The full length CD release is packed with fifteen energy filled, emotionally driven tracks. From the first track played, you not only want to move your body, but you feel it through your entire being. This is the third album release from ToT. With each album, the energy and creativity has only sky rocketed toward the stars. You can actually watch this artist evolve from the DJ he once was to the artist he now has become. This release features five tracks with vocoded vocals of ToT himself. His messages of love, hope and truth still stand strong even in his own writings. In his electro dance tracks "Make the Beat Drop" "Five O Four" we learn who ToT really is and what drives his passion for the electro breakbeat scene. In his lyrics in the track "Disguised Reality" you get a glimpse of what drives his passion for life and music. He reminds you to "Free your mind, take some time, some time to seek the questions of life and what it all means..." This album also features the angelic vocals of Serenity. Serenity is a newcomer to the dance scene, but has made a lot of noise in a short time period. Her soothing vocals on tracks such as "Higher Ground", "Sapphira" "Rain" fit perfectly with the production of ToT. Serenity also sings a duet with ToT on the tracks "Disguised Reality" "Where Did I Go Wrong". There is also a special appearance from the hip hop emcee 2 Da West on the track "Grass". This album has it all. With pounding bass and beats to electro moving grooves, then on top of all that, amazing vocals to set it all off. This CD rocks from beginning to end.
