

Spring Rainstorm Sounds For Relaxation And Meditation Mp3

[DOWNLOAD HERE](#)

What started as an attempt to record a light early Spring rain shower turned into a magical experience. The rain began innocently enough, but then half way through the recording, the rain gradually began picking up, until finally the skies just decided to unload, releasing sheets of water so dense that it was no longer possible to discern the sound of individual rain drops! While spectacular, the deluge was rather short-lived, and soon the rain reverted back to the gentle drizzle of the early part of the recording session. This soundtrack seems to tell a story, with a beginning, a build-up, a climax, and a resolution. Approximately half an hour long. Go to [moodstreamsfor](#) for more samples and soundtracks.
