As a homeschool mom, she spends most of her days taking care of her active family and teaching her kids reading, writing and arithmetic. Sandy also has a deep love for God and a desire to plant Gods word in the hearts of her children. After making up some little songs to help her own kids remember selected Scripture verses, God laid it on her heart to create a CD to teach other children what she was teaching hers. Are you sure Lord? Im a busy homeschool momand I dont even sing! It was a giant leap of faith, but Sandy said yes and God provided: A first rate producer, guitarist and a vocal training program that had Sandy practicing for hours upon end in the closet! Sandys hope is that this CD will draw children closer to God and build Godly character in them as they learn practical Scripture verses they can use in their own lives everyday. Even kids can rely on the truths of Gods word each day if only they can remember them! Looking back, Sandy can see Gods hand was at work throughout the entire making of this CD for kids. Time after time, Sandy saw God move mountains. This CD is an example of what an ordinary person, inspired to take a wise risk, can do with Gods strength!
