Hip-Hop Navigator Volume 1 The Hip-Hop Navigator Vol.1 consists of carefully recorded / faithfully rendered, complete song ideas broken down for you loop by loop, instrument by instrument. You will be able to hear the songs as we arranged them, then you will be able to assemble the compositions track for track in your own studio and mix it however you want. You can add lead instruments or vocals, change the pitch or key, speed it up or slow it down, however you want to create with it!! You dont have to use our assembled ideas though, if you dont want to. If you wish, you can just use the loops in your own productions or do whatever you want with them. They are completely royalty-free and open to your rap, vocal melody, or soloing instruments, whatever! All loops in this collection are professionally edited. There are no clicks as the loops wrap back around on themselves and all of the levels were carefully monitored so that you will have enough gain in each loop resulting in a nice mix at the end of your project. All of the loops are also set for key position so that if you are using Acid or other loop based software you will be able to adjust the pitch to correspond with your project. Inner Rhythm Studios brings you the tools you need to make your music the way you want it!!
