Adapted from the book of the same name; written by J.S.M. Ward in England, and extremely popular around the turn of the last century, to describe his spiritual visits with his deceased uncle, H.J.L., who contacted him. 12 MP3 Songs SPOKEN WORD: Audiobook, NEW AGE: New Age Details: Michael Edward Kaye has narrated spiritually oriented materials, including audio books; has done voice-overs for educational videos and recorded book excerpts for the visually impaired. He majored in dramatic arts; and worked in radio announcing. This is Michaels first independently produced audio book. He is presently at work on additional projects to be released later this year. Michael says: I believe we are entering a new era of Light, and that it is important that we understand our spiritual nature: that we are spiritual beings incarnated in physical bodies; our spiritual nature being primary. Therefore, when we die, and make our transition from the physical realm to the spiritual realm, we take with us our consciousness, and arrive at a spiritual location that corresponds with our level of spiritual development. The narrative GONE WEST describes one persons experience communicating with someone in the spiritual realm; and that souls perspective and knowledge gained after making his transition. Therefore, this narrative is of value in increasing our understanding of life eternal. It is with this in mind, and my desire to help transmit knowledge of eternal life, and the reality of a new age of Light, that I am grateful to have this opportunity to share this book, which was of great popularity around the turn of the last century to those interested in life after death, spiritualism, mysticism and esoteric religion.
