Are Webinars Reserved Only For The Big Guns? Maybe, but up until now that is. If I guess correctly, you're probably asking yourself this question, "Do I have all of what it takes to deliver an electrifying webinar?" Basically, the webinar wealth formula can be summed up in 3 steps: 1. Find the audience 2. Deliver the presentation 3. Follow up, upsell and repeat all the 3 steps! Webinars can mean the big break you've been looking for in your career as an infopreneur (regardless of any kind). This is the ultimate decision maker that will mean adding an extra 1 or 2 digits on top of what you're currently making right now! And if any or all of these steps seem like a daunting task to you, I have something exciting to share with you... Secret Webinar Riches is a 1 hour 30 minutes 31 seconds video training course on how you can start your own webinar riches and get rich delivering high impact presentations from home - or anywhere you take your computer to - and earn a MASSIVE income working just 2 hours a day! Let's Take A Peak Inside This Video Training Course:

Video #5: How to Pitch in Your Product 7 Minutes and 50 Seconds Before you begin to brainstorm and plan your own webinar, you will want to learn how to pitch the product you are selling, inside your webinar. That would be the last 15 minutes on how to effectively pitch in your back end product and get people to act now. Just like those offline seminars where the speaker gives the Upsell in the last 15 minutes of his or her speech, we'll show you how to do the same in your webinar.
