Overnight Membership Site PERSONAL USE RIGHTS ONLY! The Fastest and Easiest Way for Even Lazy People to Get a Stable, Recurring Income Online? How Anyone Can Create Automated Niche Membership Sites Using Free Content -- Overnight What if, by tomorrow, you could have a new recurring income stream depositing cash into your Paypal account... without being an expert or having any content of your own? What if also you could watch over my shoulder and let me show you exactly how I do it -- in a brand new niche where I have NO experience, NO contacts and NO content... If youve ever thought about starting your own membership site or continuity program, but found it too hard, too time-consuming, or just flat out too much work, then you need to know this... Membership Sites Can Be Easy! It doesnt matter what youve heard from anyone else, or what youve tried before, the fact is there are easy ways to setup recurring income streams with minimal effort. Some people will tell you membership sites are a lot of work -- you must be constantly churning out content to make members happy. Well, guess what? Members expect what you tell them to expect! Tell them they get 1 interview each month... or 1 report each month... or 1 newsletter each month... and thats what they expect. Simple. Some people will tell you its hard to keep members active -- theyll drop out after only a few months. Well, for every person that says its hard to keep members, there are 2 others that have hundreds of active members for years on end. Who would you rather listen to, the successful people or the unsuccessful people? And other people will tell you people dont sign up to membership sites... especially in the current financial situation. Again, who are you going to listen to? The whiners and complainers who say everything is hard... or... The successful people who are signing up members faster than ever despite whatever is going on in the world. I know who I chose to model. Finally, some people will tell you that you have to be an expert to run a membership site... that you need a ton of content on an ongoing basis. My response? BUNK! Experts are a dime a dozen... content is everywhere. (Ill show you exactly how you can find plenty of both.) The bottom line is membership sites can be easy -- probably MUCH easier than you ever thought possible -- IF you know a few tricks of the trade. After building a number of membership sites for myself, and more for my consulting clients, I decided to put together a course showing you exactly how Im setting up

simple, automated, overnight membership sites, using free content. Not an ebook or report youll never read, but a complete, step-by-step home study course using video, audio, and written materials showing how you can copy my simple plan. All you have to do is copy my plan and replicate my success! And much, MUCH more! As you can see this course is jam-packed with everything you need to know to get started with your own overnight membership sites. Im laying everything I know out on the table and giving you the exact step-by-step process Ive been using... As soon as you get the course you can watch the videos (or listen to the audio or read the transcripts, if you prefer), and see what Im doing... why Im doing it... and how you can do the same. PLUS The simple workbooks/checklists make it paint-by-numbers. Imagine how easy it will be to setup your own recurring income streams simply by following along with the videos! So Whats This Going To Cost? OK, lets look at what it could cost you... I started off probably a lot like you. I didnt have anyone to show me the ropes. Figured Im a smart guy, I can read some forums and learn it all myself... it cant be that hard, right? Ha! It took me months to get my first site setup. And I didnt really have any idea of what I was doing. Sometimes I think it was pot luck my first site actually made money. I stumbled and stuttered and made more embarrassing mistakes in those first few months than I care to remember. How much money did I waste during that time? Honestly, I dont know... and I dont really want to think about it. But I guarantee it was a lot more than the small investment youll make today. We both know time is money, right? Even if I valued my time at minimum wage rates -- say $5 per hour, 5 hours a day, 5 days a week... thats $500 a month -- and it took me a few months to finally fit all the pieces of the puzzle together... youve got to figure that learning process cost me a few thousand dollars in total. I dont know about you but if there was a way to shortcut that learning curve -- a way to save thousands of dollars -- Id jump at this opportunity. Just think... if you could get your first site setup in a few days, rather than a few months, imagine how much extra money youll make, and how much sooner youll make it. You Could Waste Months Of Time And A Few Thousand Dollars... And you still wouldnt have any guarantee of success. And you still wouldnt discover even half of the strategies and tactics covered in Overnight Membership Site. That reminds me, what youve seen so far is only part of the program -- theres still an entire other module! The Overnight Membership Site course is an excellent learning tool and gives you everything you need to get started creating you own membership sites right away. But sometimes you just need to see something done to make it really sink in. Which is why I created this extra Bonus Module... Bonus Module - Live Example In this special bonus module you are going to watch over my shoulder as I develop a brand new

membership site -- in a niche I know absolutely nothing about, where I have no contacts, content, or experience -- and see exactly what Im doing every step of the way. Youll see why I chose the niche, how I decided on the product, where I got the content, how I put it all together... and... the results! Maybe Ill land flat on my face and the site will bomb. Or maybe Ill hit one out of the park and create a brand new revenue stream right in front of your eyes. Either way itll be an exciting process (for both of us Im sure), a beneficial learning experience, and a real eye-opener to see a membership site put together in just 1 day. Im sure by now you can see the true value of this training program -- the potential to save you thousands of dollars and months of effort... tips, tricks & tactics to make you more money, faster... a proven system to create profitable membership sites overnight. What if you breeze through the Overnight Membership Site training then create a site that brings in $3,000 a month. How much would that be worth to you? What if you created 2 sites that each brought in $2,000 per month? Or what if you get the course then only develop 1 membership site, and its only a moderate success, bringing in just $1,000 a month... youre talking about a recurring income stream worth $12,000 a year. Lets say the course only cost $297... Would you invest $297 one time, to make $12,000 each and every year? Would that be worth it to you? Of course it would. I doesnt matter who you are, an extra $12,000 always comes in handy. Thats a big chunk out of your mortgage, a family holiday to Disneyland, or one years lease payments on a 2008 Mercedes CLS550 Coupe... Rest assured... Overnight Membership Site wont cost you anywhere near its true value. It wont even cost you $297. Because my schedule is already packed with building and growing my own membership sites, not to mention those of my consulting clients, I simply dont have the time to devote to marketing this program at its true value. So to make sure the Overnight Membership Site program flies out the door and clears up my schedule Im going to release it for just $15. And remember... you get 5.5 hours of video training... 1 Introduction Module & 5 Core Training Modules...MP3 audio files and PDF transcripts of the presentations... step-by-step workbooks that walk you through the simple process... PLUS the Bonus Module where I show you a live demonstration of setting up a profitable membership site in just 1 day! _____ Visit My Store For More Deals!!! ebooksheaven.tradebit.com _____
