The money is in the backend, so show your customers these handpicked products as recommended resources. "The PLR Rockstar" This 10 part, step by step video course shows you a simple (yet extremely powerful) method of creating profitable digital information products from other people's work, using private label rights -- FAST. If you venture into the world of PLR without any training, then good luck. Youll waste countless hours of your time and youll have products that nobody will want to buy (or have already bought !) to show for all your effort. Plus the hassle of competing with all the other PLR owners out there. Some people make their living just by buying and selling PLR products. Theyve got this

down to a science and if you dont know these secrets, then you wont make money with PLR. Have you ever bought a PLR product which promised riches on the salesletter but then found the product to be terrible after buying it? The more horrible a PLR product is, the lengthier a process itll be to revamp it. Trust me Ive been there And thats not all its not just about the content. There are common mistakes that inexperienced PLR marketers make that will cost you a lot of money. Make these mistakes and your PLR products will not be any different than the junk that is already on your hard drive. In fact it could end up worse, even when you've spent hours trying to get it together! This section of the video series is important. It's where I basically tell you what not to do when trying to make money with PLR.
