

Mp3 Michail Sicas - Eavesdropping

[DOWNLOAD HERE](#)

Relaxed vocals on atmospheric soundscapes and chilled beats a magic experience of sounds. 11 MP3 Songs ELECTRONIC: Trip Hop, ELECTRONIC: Ambient Details: MICHAEL SICAS Of greek origin, I grew up in little Switzerland, where everything is proper, a little bit slow but actually a nice spot to live. Before singing I did a lot of theater, from classic to modern, went to a lot of schools and got a smart guy. I always wanted to be an artist, so I started acting school. After several years performing on stage I decided to start with my second big love singing! A lot of people ask me what kind of music we are playing. It is difficult to explain in one or two words. It is not just pop-music, or club-music. The influences are also from eastern and western sounds, we try to combine different styles, also we are not just using computer sounds. For my musicians and me it is still very important to use good old real music instruments. I will give a try and explain the art of sounds we create; kind of world music, with trip-hop, a little bit of asian beats, smooth lounge and chilling sounds sung in english. There you go...not easy, and of course what is important to me the lyrics. As a singer i will also not only sing in english. This is/was a start of course, but I am bound to my native language, which is greek. And I always had the dream to perform in greek sometimes. I hope I will get that opportunity to work with greek musicians for a special album in the future. It was quite a piece of work and it was all worth it! we're proud to present an album that sounds really magic. It has an ethnical but also an spacy-atmospheric touch that carries you into other worlds. Dreamworlds I would say, worlds of thoughts and emotions that vibrate through our lifes. Styles: trip-hop, ambient, asian beats, lounge, downbeat. Musicians: Michail Sicas vocals, lyrics Enzo Lopardo drums percussion/synths sounds/ programming Michael Leopold all flutes Manfred Pristas electric acoustic guitars, mandoline Philippe Mall soprano sax (land is one sphere)
