Instrumental Surf meets Sabbath from outer-space. 22 MP3 Songs ROCK: Surf Rock, ROCK: Punk
Details: The new Amino Acids album "Humanity Will Fall Like Pins" could be called "music to ride an experimental test rocket bareback directly into the Sun through a dense meteor shower while beating back attacking robodemons with bare fists by." One might alternatively term it SciFi Surf Punk Masked-Man SuperVillain Metal. Previous albums might have fit the "Superhero Metal" genre but this is definitely more Brainiac and The Joker than Batman or Superman. (But it's still KINDA Superman and a whole lot of Batman.) "The Ennio Morricone of Surf Music!" Reverend Ivan Stang Church of the Subgenius
