Ambient, Idm & Experimental Drum Loops(rex2)

[DOWNLOAD HERE](#)

100 high quality electronic drum loops that will offer you the foundation to build downbeat electronic music like Ambient, Dub, Trip-Hop, Downtempo, IDM, Experimental... These grooves have all been recorded at 60BPM and converted into REX2 files so you can start on a slow tempo range of 60 BPM and increase the tempo to 130 BPM without affecting the audio quality. FEATURES: - 100 Drum Loops in REX2 format; - BPM range: 60-130 BPM; - All loops are 44KHz/16bit REX2 format; - All Royalty Free. COMPATIBILITY: Propellerheads' proprietary REX2 format allows time stretching in compatible software and can be imported into the Stylus RMX virtual instrument, Cubase, Reason, Logic, Digital Performer and many other audio programs supporting REX format files. Now as an open format, any manufacturer, large or small, can support REX2 playback in their applications. equinoxsounds.com
