Acoustic snapshots of everyday life seen in an extraordinary way. 12 MP3 Songs FOLK: Folk Pop, POP: Folky Pop Details: Thanks for checking out my CD Baby page. This is my first project as a solo artist, and I'm really happy with the results. It was put together in a very laid back atmosphere with good friends hanging out and adding their talents when it felt right. The songs were written over the past 7 years, and they are snapshots of everyday life. I've tried to be honest with these songs and I hope you find some truth in them. I've had the great pleasure to play on the same stage opening for some great artists including B.B. King, Indigenous, Robert Cray, Kelly Joe Phelps, Jeff Lang, Mason Jennings, Fred Eaglesmith, Storyhill, Chris Cunningham, Justin Roth, Brenda Weiler, Marcoux Corner and John Hermanson. The world definitely doesn't need another guy with a guitar singing songs, but I think the world always needs more honesty and truth, and this sound is my attempt to be honest with the world around me.
