This original composition by Terry Teigen and Keith Terhune was commissioned by Admiral Congregational United Church of Christ for the first anniversary of the church's status as an "open and affirming congregation" and the text of the verse was based on the church's statement of core beliefs and values. The chorus incorporated a paraphrase of UCC welcome phrase "No matter who you are, or where you are on life's journey, you are welcome here". The score is SATB with chord symbols for improvised accompaniment. Also included is a single line lead sheet for praise band or other musicians.
