----- Daily Express Prokofiev's prettily told musical story of the boy who killed the wolf has fascinated musicians and actors for years. Now the rock musicians want to tell the tale. In this version, we have Stephane Grappelli (cat) and Eno at the synthesizer (wolf) . Composer- musicians Jack Lancaster and Robin Lumley add to the excitement. (Judith Simons. Daily Express) ----- Melody Maker Narration on the new rock Peter and the Wolf is performed by Viv Stanshall ( ex Bonzo Dog vocalist and the voice on Tubular Bells). A very sinister wolf from the keyboard of Brian Eno and a roster of great musicians ( It reads like a who's who of the rock scene) turn the old dog into a exciting new adventure. Jack Lancaster and Robin Lumley have stuck to the original story in a way- although they did rewrite the dialogue and have added new themes. This is without a doubt the very best version of Peter and the Wolf I have ever heard. Great music lads (C.W. Melody Maker ) Searches:peter and wolf rock version
