ROCK. Influenced by such heavyweights as Radiohead and STP, Abundavida is laden with sonic landscapes and driving beats. The album mixed by two-time Grammy winner Darrell Thorp (Radiohead, Outkast), features original cuts written by lead vocalist Ryan Ja 13 MP3 Songs ROCK: Modern Rock, ROCK: 90's Rock Details: Check out the dynamic beats of "Panty Ho" and the determined action plan of "Feel" (I wanna go too far /And take what I can /This life is for the living /Don't wanna just look in). Then there's the commercial-sounding track "Lonely Day," which will be featured on the upcoming THQ game release "MX Unleashed" for Sony Playstation 2 and Xbox (The game is set to release in February 2004). And suddenly a mood swing - ever so smoothly, Otis takes you into a time of reflection with their catchy hook and regrets in "I'm Sorry" and their contemplative thought provoking verses of "Nothing Sky" (Where do you go to find tomorrow? /What kind of space do you think you'd fill?). "Angel" is charged with a sucker-punched emotional longing that just firms up the belief that this band is as diverse and talented as they come. Just try sitting down to the driving beat of "Safe From You." Otis was first introduced to the world when they released "Hold Your Breath" on the video game Splashdown in 2001. More recently, they were commissioned to write the song "Forever Still" for the forthcoming animated feature Ark. This introspective song about loss finds hope and a poignant live version of it can be found on their debut album Abundavida.
