A richly textured blend of world music, art pop, dream pop, old music and darkwave. 10 MP3 Songs
WORLD: World Fusion, FOLK: Folk Pop Details: City Canyons Records is exceedingly proud to add Peter Ulrich, the noted percussionist from the legendary Dead Can Dance to its roster. His music recalls "Dead" but has an an exotic flavor of its own, blending seamlessly an array of musical genres--art-pop, ancient and medieval, gothic, new age, world and ethnic-- into a lush tapestry. But words cannot explain that music To understand it, you must enter Ulrich's world of light and shadow, a world of black and white magic, a world haunting, mysterious, sometimes frightening but in the end uplifting--a world powerfully mapped out in Ulrich's new album, ENTER THE MYSTERIUM --but be aware that you may never return to the world as you knew it once you have crossed into this new world's realm.
