Mountain Dulcimer solo instrumentals, plus 7 live recorded 'songs' with dulcimer and vocals. Songs from around the world, played on eclectic dulcimers, ranging from electric dulcimer, to guitar-cimers, four string, five string, and bass dulcimers 25 MP3 Songs FOLK: Traditional Folk, WORLD: World Traditions Details: "For dulcimer fans there's a lot of pure dulcimer here- dulcimers of all shapes, sizes and timbres- ranging from the wonderful high registers of the ginger dulcimer to the full throaty sound of the bass dulcimer. For Kevin Roth fans, there's pure Kevin here, including the magical dulcimer arrangements and the wonderful vocals fans have come to expect.. If this is your first introduction to Kevins' music, I'll just say that Kevin recorded his first lp for Folkways records in 1974 when he was 16. This introduced his unique and innovative style of mountain dulcimer playing and singing to the folk fans of the 70's. Since then he has recorded over 30 albums of music for adults and children to rave reviews, and is one of a few who literally saved the dulcimer from obscurity. He's played just about every major dulcimer and folk festival on the planet and continues making great music every chance he gets. For more of a good look at Kevin's background, check out his website at WWW.KEVINROTHMUSIC.COM, and don't miss his art work there either. If any of your friends ask you what a dulcimer is, the definition is the CD you hold in your hand" Fritz Schuler, The Golden Ring Folklore Center
