On this exciting new Texas blues artist compilation of three great female singers, the producers at TopCat have put together a powerful addition to Texas blues as diverse as the Lone Star State itself. Although the album features a treasure trove of great blues tunes, it also showcases inspired live performances of Texas' up and coming blues divas Chonita Turner, Lady Lotion and Jav-Lyn. These Texas Blueswomen walk the walk associated with Etta James, Millie Jackson and Carol Fran, but leave tracks all their own. With these 11 all-time favorite cuts (over one hour total recording length), "Texas Blueswomen" is packed with the classic and contemporary sounds from one of the hotbeds of U.S. Blues. The "Texas Blueswomen" sing hardball blues and heart-stopping ballads. These original "riot grrls" make listeners sit bolt up-right and seasoned nightlifers blush, when they address -well, let's call it the erotic art. Sample the spiced-up versions of the classics on this CD and you'll know we're not talking pansies and boxed chocolates here. We're talking get down, get-low LOVE-making, salty, wet and hot enough to weld with! The extensive accompanying liner notes and photos help make "Texas Blueswomen" a solid introduction to the South Dallas, Texas blues scene (the REAL thang!) and an instant collectors item for blues fans everywhere.
