Details: GENDER QUEER SEX APPEAL: Kelly Moe was born in Pendleton Oregon and raised in Portland Oregon. He was brought up in an inspiring family that supported every inch of his talent. Kelly was born a performer from the get go; theatrically expressing himself by singing, dancing and producing art at the age of 5. At the age of 16, Kelly became more hands-on with his gifts in music, using a cheap Casio keyboard and a hand-me-down microphone to record and produce some of his first albums. By the age of eighteen, becoming more of a public figure, he started taking music more seriously by performing with other artists in live shows and collaborating with different producers. This put him in a position to find his niche as a producer and lead vocalist for his own albums. Kelly has now finished his 11th album titled KELLY MOE: ON THE RIZE. Kelly is just as fierce live as he is in the studio! Dont miss your chance to hear his new album live in an audience near you! Stay tuned for Moe in 2009! Tags: pop
