Review by Jonas Sturas: "The combination of lead vocals, choir and various digital musical instruments used in 'The Sounds of Heaven' takes you on a sound journey through the Heavenly Realm. As Heaven itself is indescribable so is this album. It is original, fresh and hard to categorize. No 'Labels' come to mind that compare to this work. It is a pure joy and pleasure for me when listening, especially at bedtime. The melodies are relaxing and soothing, and next morning its lovely sounds and prayerful, powerful, words remain with me. During the day many of the melodies run through my mind as a gentle, peaceful form of prayer and as a reminder of this other world to which all souls aspire."
