

# Debussy - Nocturnes: Fetes - Synthesizer Recording

[DOWNLOAD HERE](#)

I spent two and a half weeks recording this, one of my favorite Impressionist pieces, in Logic Pro 8. Here is Debussy's description of the piece: "The title Nocturnes is to be interpreted here in a general and, more particularly, in a decorative sense. Therefore, it is not meant to designate the usual form of the Nocturne, but rather all the various impressions and the special effects of light that the word suggests. 'Nuages' renders the immutable aspect of the sky and the slow, solemn motion of the clouds, fading away in grey tones lightly tinged with white. 'Fetes' gives us the vibrating, dancing rhythm of the atmosphere with sudden flashes of light. There is also the episode of the procession (a dazzling fantastic vision), which passes through the festive scene and becomes merged in it. But the background remains resolutely the same: the festival with its blending of music and luminous dust participating in the cosmic rhythm. 'Sirenes' depicts the sea and its countless rhythms and presently, amongst the waves silvered by the moonlight, is heard the mysterious song of the Sirens as they laugh and pass on."
