UFO - TARGET EARTH MOVIE - 1974 Runtime: 01:17:22 A Communications expert investigates reports of UFO sightings and hears of a Spacecraft that may have crash landed in a Lake decades ago. He sets up his radio wave experiment with the help of his College Professor. This movie has great music and great trippy visual effects. What do you expect it was the 70's. Note: The movie starts with a small screen. This is done by the director of the movie for effect, as if your watching a News report on TV about UFO sightings. After the intro. the movie fills the screen. Director: Michael A. DeGaetano Producer: Michael A.
