From The Desk Of Timm Miller Dear Friend, Creating promotional videos is something that not everyone can do and that's generally because there aren't many guides that show you how to do them correctly. A lot of them focus on the visual part of the promo video which is wrong. In fact there is one key element that can make your promo video increase your sales, and if you do it wrong, it'll drop your sales. If your promotional videos are not created in high quality, you can kiss your product conversions goodbye. You see...promo videos are similar to your sales letter, but a lot shorter. The advantage is you can often press emotional hot buttons quicker and appeal to audio/visual people. You have to remember that some people like to read, while many people like to watch. voiceover, which is the person talking. Having a bad voiceover will ruin your whole promotional video. That's just a tip you will find in this video series.
