Deep within the pitch-black jungle, far from civilisation and urban safety, "The Temple of Breaks" awaits your arrival. Dare to explore this rhythmic fortress, carved out of heavy ancient rock by the high priests of Drumfunk, built to hold the power of the most frenetic old-school beats known to man. Injecting venomous influence from a wide range of artists and labels such as Paradox, Calyx, Prolix, Noisia, Chase & Status, Ed Rush & Optical, Moving Shadow, V Recordings, Full Cycle and a host of up and coming and current artists and labels Find your way around 75 pounding loops of hack n' paste percussive energy, sped up to an inhuman 170-182 BPM, expertly compressed for the controlled chaos you crave in your productions. These pristine and searing beats are available in many perfected formats such as .WAV, Apple Loops or Rex2, so you can drop them straight into Cubase, Logic, Reason, Fruityloops, Ableton, Acid and many more sequencers easily. "The Temple Of Breaks" sample pack is all about rhythmic imagination, so with breaks like "Hitman", "Overdose" and "Incoming", you know your audience is going to get some serious brain food, especially if you select the Scissors tool and go mental! At Prime Loops we never forget that you demand the highest quality, so for this pack we recruited Russian engineer Dmitry Vasilyev, a musician and programmer so hardcore he writes his own software. His original plug-ins combined with authentic old-school hardware, valve preamps and reel-to-reel tape will give that nu-retro shine to your rhythm section. Have no fear, there are no useless scratchy pseudo-Amens here, just beautifully sliced and fully saturated funk breaks for a legion of drum & bass styles, such as drumfunk, darkstep, dubstep, hardstep, jump-up, liquid funk, sambass, techstep, neurofunk, drill n bass, breakcore & many more. The lords of the jungle are sharpening their knives for the ceremony, so prepare to cut and chop your way through this feast of drums, breaks and crashes! Take a trip beyond the limits of mainstream drum & bass civilisation and lose yourself in "The Temple Of Breaks". You can find this release in a large number of other Special Formats on our website including: Ableton Live Pack (93mb) Acid Loops (97mb) Akai MPC (122mb) Apple Loops (96mb) FL Studio (97mb) Garageband (96mb) Rex2 Loops (78mb) Stylus RMX Loops (78mb) WAV + REX2 (175mb) and many, many more! primeloops.com Tags: drum and bass loops
