From shuffled percussion to sparse vocal fragments, and dark powerful basslines underpinned by a relentless House/Tribal House rhythms. Each part has been isolated so you can choose which parts you want to use in your own track. All parts are "looped" perfectly, so you can simply drag and drop the desired parts into your music sequencer. Educational Use: A number of variations on the main mix have been isolated and included in this pack to illustrate the various ways in which the elements can be combined, and also to allow you to create variance in your mix using only one audio channel. MIDI has the advantage of allowing you to use the musical/rhythmical content in the pack at any pitch or tempo, with your favourite software or hardware instrument and all without any audio artefacts or glitching. About the Producer: This pack was created by producer and live artist Oriol Benedet. His current project, 'Funkadub' sees him working with many talented musicians with an album soon to be released on Travelling Soul Records, supported by respected artists such as Silicone Soul.
