With bold, cinematic strokes, Christmas Fantastique transforms the simple beauty of traditional Christmas melodies into stunning and festive new holiday jewels. 17 MP3 Songs CLASSICAL: Orchestral, EASY LISTENING: Background Music Details: Marrying the majesty and soaring power of Christmas melodies with the mythic sweep of music for the cinema was the core mission and inspiration behind Christmas Fantastique. These lush creations for full orchestra quite intentionally embody the bold, dramatic spirit that film music captures so elegantly. It was quite natural, then, that Nelidova Records should turn to the world-renowned Moscow Symphony Orchestra to breathe passionate new life into these Christmas classics. Under the imminently capable and soulful baton of Konstantin Krimets, the first-class musicians of this prestigious 80-person ensemble take us on a dramatic journey through the land of Christmas. In addition to acclaimed performances in its home city of Moscow, the MSO has toured extensively throughout the world, including Europe, China and Japan. With over a hundred recordings to its name, the Moscow Symphony Orchestra has recently contributed extensively to soundtracks and video games and in 2006 was nominated for a Grammy for its recording of The Adventures of Mark Twain. Nelidova Records is proud to join forces with this acclaimed ensemble to bring the magic of Christmas Fantastique into your life this holiday season.
