Not just your ordinary ambient album but rather a musical meditative voyage to relax the soul as the title intends. Zen Voyage features 10 beautiful mantras based on sanskrit texts each invoking its own sacred meaning and message. Leas velvety smooth voice uplifts us to another dimension, taking us back to our essence, our own journey of life... Inspired by her India trip where Lea studied and chanted with true Indian chanting masters, she embodies these mantras with her hypnotic soothing voice and melodies. She quotes Ive never felt so at peace like I did when i was in India, that I wanted to always feel this way so i started singing these mantras when i came back to Montreal and decided to record them so I can relive this inner-peace feeling daily. I hope I can help others to find their peace through my voice and music.
